

Click-It® Cosmetic Braces  
blend with your teeth  
so only the true you shows through.

# Developed for maximum hygiene and minimal discomfort.

Your Click-It braces not only look good, they're specially designed so you feel great while your teeth move into all the right places.

- Easy hygiene with less food or plaque getting caught in your braces for a straight, healthy smile after treatment.
- Cheek and lip protection from painful cuts with rounded edges and super smooth surface.

## **Why Orthodontists choose Click-It**

Your orthodontist chose Click-It Cosmetic Braces for you because in addition to looking great they use a special self-ligating technology. Unlike ordinary braces, self-ligating braces usually don't require any rubber bands and can move teeth with more precision. The result is your braces are strong and durable for a perfect smile in fewer appointments.

# Click-It Cosmetic Braces. Designed for you.

A clicking sound lets you and your orthodontist know that your braces are in place and secure.

## More reasons to smile than ever:

- You're on your way to a perfect smile and most people may not even notice your braces.
- Less food gets caught in your braces than ordinary ones so teeth stay strong and clean.
- Less plaque builds up without rubber bands for a beautiful, healthy smile.
- Your braces are so advanced they may shorten treatment time and require less visits to your orthodontist.

Smile with confidence for the camera. Your braces won't even show in most photos.

# Be you. Smile with confidence.

## Look great and smile throughout your entire treatment

Click-It Cosmetic Braces use a breakthrough design to blend in with your teeth. When braces match your teeth, only your real smile shows.

Personalized  
Color-Matching  
Technology®

*Breakthrough cosmetic design blends your braces  
so they match your teeth. You'll look great during  
and after treatment.*

# Your perfect smile is right on time.

Using a special design, your braces give you a straight, beautiful smile and usually don't require any rubber bands. You may even finish treatment faster and in fewer appointments.

- Minimized lip and gum irritation with extra smooth surfaces.
- Braces come off easily without damaging your teeth at the end of your treatment.

*Combined with tooth-colored wire, your braces are almost invisible.*
