The Pre-Finisher Appliance will fit most occlusions, either following the removal of fixed appliances at the end of aligner treatment or in nearly normal occlusions, including those that have minor orthodontic relapse.

Exceptions would include:

- Cases with tooth mass discrepancies (one or more teeth that are relatively large or small)
- Cases which exhibit unbalanced extractions (only one tooth removed in one or both arches)

In such cases where a Pre-Finisher Appliance is not feasible, it is recommended to prescribe a custom finishing appliance to facilitate final minor corrections.
