Assorted Colors – 5 of each color	383-941	

Super Slick Mini Stix are virtually frictionless elastomeric ligature ties. They feature a highly lubricated Metafasix technology coating that, when moistened, provides a slippery surface that significantly reduces friction at the point of archwire/ligature contact.

Uncoated Mini Stix elastomers are designed for single patient use to reduce the risk of cross-contamination. The elastomeric material used for manufacturing is highly resilient, colorfast and stain-resistant.

Mini Stix Ligature Ties are available in packages of 40 stix. The assorted colors have 100 stix, 5 of each color. Mini Stix are latex-free.

Visit **tportho.com** to order ligatures or call **800.348.8856**.
